

CITY OF SPRINGFIELD  
INTER-OFFICE MEMORANDUM

ATTENTION OF \_\_\_\_\_ FILE \_\_\_\_\_

DATE 10-23-85 \_\_\_\_\_

DEPARTMENT \_\_\_\_\_

RE: Truck wreck - 60 Hwy East of Hwy 65 (10-10-85)

At approximately 9:45 P.M. (10-10-85) I received a call from the Fire Dept. stating that there had been a truck wreck on 60 Hwy just East of Hwy 65. The dispatcher stated that the truck had lost the contents of his saddle tanks.

Upon arriving at the scene I found a semi tractor and trailer in the ditch. Apparently the driver was driving too fast for the rainy conditions and lost control of his truck. The contents of the right saddle tank was lost when it was punctured by the guard rail. The contents of the left tank (driver's side) then drained to the right tank and out onto the ground. Approximately 200 gallons of diesel was spilled.

No clean up was attempted at this time because of rain. Karen Chandler of this office made an inspection on the morning of 10-11-85 and found no clean up to be necessary.

The truck was driven by Mr. Lonnie J. Woods, Jr. and was owned by Saunders Systems, Inc. in Memphis, Tenn. Mr. Woods was told to report the spill to the proper authorities.

The truck was loaded with styrofoam.
